- Split shaft PTO
- Blower drive via cog power chain
- Water pump drive via hydraulics
- Cyclone separator with enlarged collection chamber and manual discharge valve
- Centrifugal strainer
- Final 100 micron multi-layer strainer, removable and cleanable
- 360° extendable 20' boom with storage behind truck cab
- Electro/pneumatic vacuum breaker
- Waterproof multi-function remote control for boom, water pump on/off, vacuum breaker, tailgate and e-stop
- Hydraulic tailgate locks
- Directional splash shield, including side shielding attached to solids container
- Cold weather recirculation system
- Anti-freeze/glycol system for water pump and hose reel
- Rear arrow board
- Hand held retractable work light
- Mandatory marker lights and front/side reflectors
- Fold down tube racks on tailgate
- Three (3) 8" diameter x 6' long vacuum tubes
- One (1) 8" diameter x 6' long vacuum tube with flexible end
- One (1) 3/4" dig tubes with stainless steel heads and nozzles
- All controls on curb side
- Painted per customer's request

Optional equipment available:

- 15 cubic yard capacity with 1,250 gallons clean water (model X-15)
- 5,250 CFM, 27" Hg Vacuum Pump
- Dual cyclones
- 3,500 PSI water pump
- Hose racks
- Extended splash shield
- Tank access fold-up steps
- Colorized water tanks
- Vacuum tubes in 8', 5' and 3' lengths
- Vacuum hose in various diameters and lengths
- Lighting to meet customer's requirements
